edition 1

02/2023

The STEAM4LIFE project focuses on empowering Higher Education students (with a focus on women) to actively engage in the STEAM field, while promoting higher educational institutes in building their capacity to implement innovative STEAM activities and approaches.

This will help to empower and encourage women in the STEAM field, enhancing their confidence and self-esteem and positively affecting their future career choices.

Co-funded by
the European Union

Have you ever wondered why only 35% of all students enrolling in STEM subjects are female, when all the studies show that boys and girls perform exactly the same in STEM subjects at school?

No?!!! But we did ...

... and that is why we have launched the STEAM4LIFE project to empower women in higher education to actively engage in STEAM, while supporting higher education institutions to build their capacity to implement gender-balanced STEAM activities and approaches!

However, to begin our work, we would like to ask for your support! In this first step, we would like to better understand the current situation, practices, needs and challenges regarding female students in STEM fields.

In case you are Higher Education student or teacher in any STEM subject in one of the countries below, we would be most grateful if you could answer one of the questionnaires:

CYPRUS

GERMANY

<https://docs.google.com/forms/d/e/1FAIpQLSeXwKR8x1ULK-Hi6zMf9OvBBapLYQFC6kACQdG1d2jWt01N7Q/viewform>

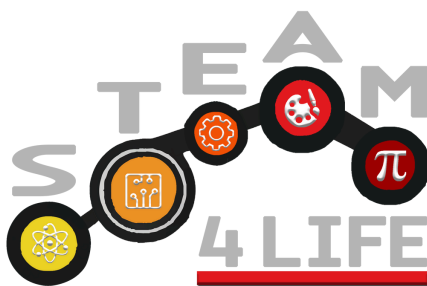

The estimated time required to complete this questionnaire is 10 minutes. All data collected through this survey will be used for research purposes only. Responses will be handled discreetly and are completely anonymous!

This online survey will be accompanied by expert interviews and desk research. As soon as the final results are published, we'll let you know in our next newsletter!

Thank you very much in advance for your kind support!
