edition 3

10/2024

The STEAM4LIFE project focuses on empowering Higher Education students (with a focus on women) to actively engage in the STEAM field, while promoting higher educational institutes in building their capacity to implement innovative STEAM activities and approaches.

This will help to empower and encourage women in the STEAM field, enhancing their confidence and self-esteem and positively affecting their future career choices.

Co-funded by
the European Union

WWW
& ONLINE

After almost two years of work on how to best empower women in higher education to actively engage in STEAM and on how Higher Education institutes can increase their gender-balanced STEAM strategies and programmes, it is time to share our results with you!

This will be done in an **international conference**, held in Berlin and online on **13 November 2024 from 11.00 am to 1 pm**.

Fore more details, please scan the QR code above.

Visit also our website where you have free access to all our learning and teaching materials. Please feel free to download, use and modify as you like: www.steam4life.eu/project-results – everything is completely free of charge and provided with free licences.
